

# BRAIN-BASED LEARNING

## Teaching the way the brain learns

**31<sup>st</sup> May 2023**

### Programme

#### **18:30 - 18:45 Myths about the brain: How the brain really works**

Do you think you know how the brain really functions? Are you ready to challenge some of your preconceptions about this? We have all heard of multitasking but is this really possible? Our parents have been telling us for years that we were born in a certain way and there is nothing we can do about it but have you ever thought of trying? Do you want to find out the truth behind it all? Then, get ready for a teacher's edition of Myth Busters!

#### **18:45 – 19:30 Principles of Brain-Based Learning**

Teachers have always tried to stir the students' interest and get their attention and have been more or less successful. We live in a fast-paced world and education needs to rise to the expectations as well. Do you know how to engage the new generation of students? The nine principles of brain-based learning will be your guide and your ally in delivering appealing content which is effortlessly transferred to the long-term memory. Join me and find out how you too can achieve it!

#### **19:30 - 20:00 Designing a Brain-Based Lesson Plan**

If you are under the impression that you will be mere spectators, then, you are in for a treat! You will have a one-of-a-kind opportunity to put it all into practice and help create an entire brain-based lesson plan! Let's join our forces to bring education into the 21<sup>st</sup> century! Your students will be forever grateful!
